## Why should you attend?

**Because the landscape we work in has changed.  
Not a cyclical bubble but a structural earthquake.**

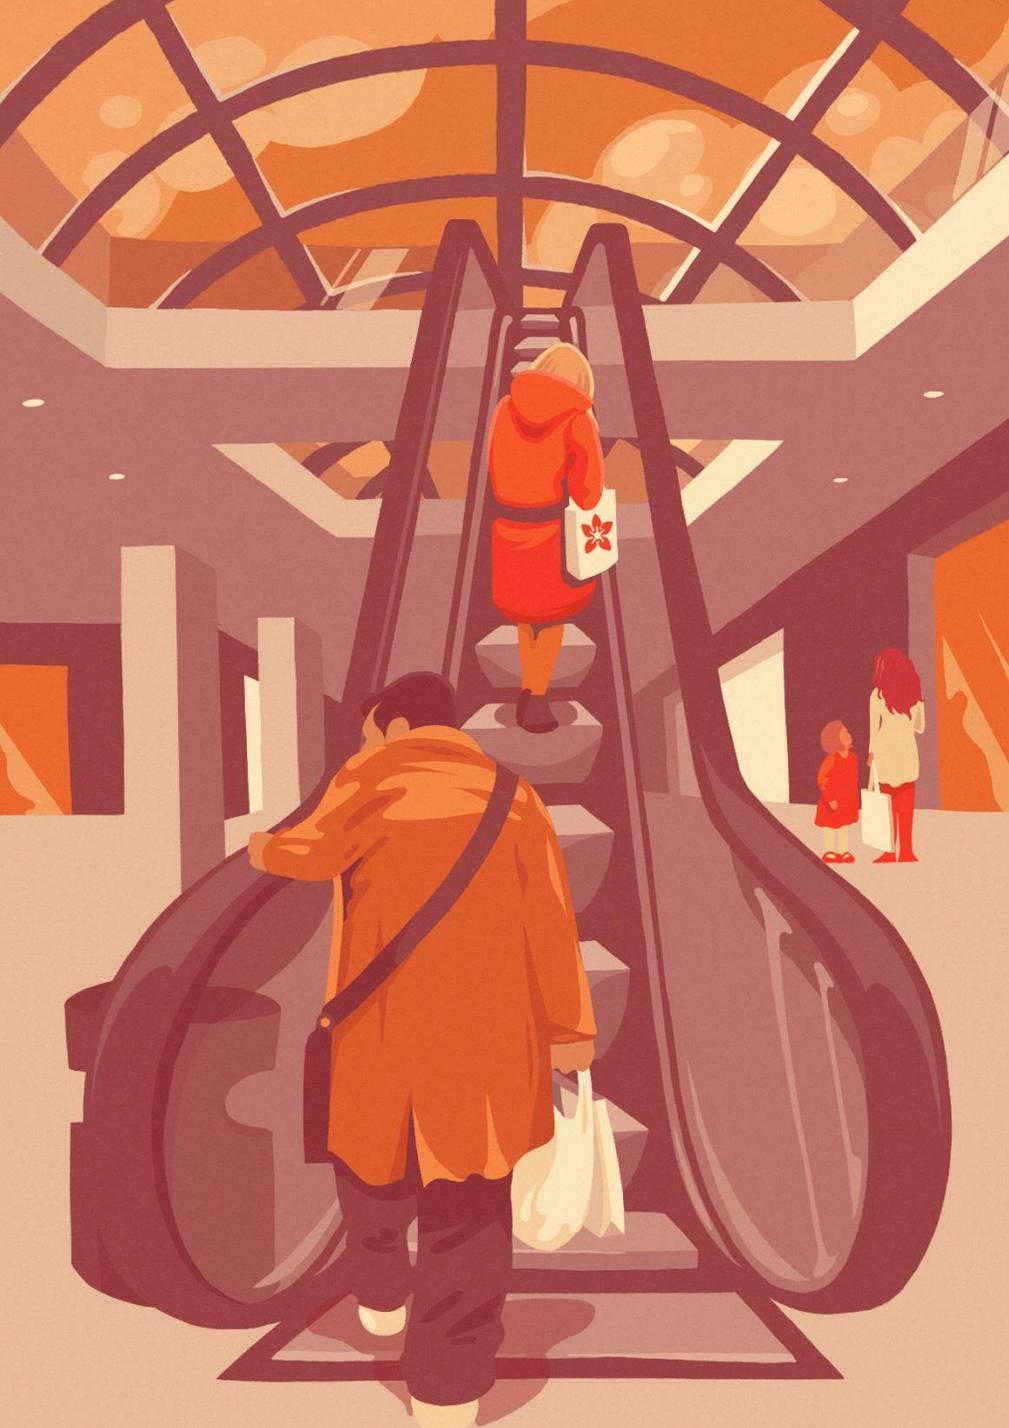

**Our industry is changing. The way people shop is changing – no longer just for goods but for experience.** An over-supply of retail space has become clear and as an industry we are re-purposing and transforming spaces and places to deliver formats and experiences that are relevant, vibrant and engaging to our customers and our wider communities.

That means engaging with, and understanding, other parts of the real estate, infrastructure, retail and placemaking sector is critical as we move towards more dynamic, mixed-use destinations.

### **Plus:**

Clock up **19 CPD hours** by attending first rate speaker sessions in person, listening to live streamed content or downloading afterwards.

**It all counts.**

## Did you know...?

Every penny of every pound we generate is reinvested back into our community.

This means the revenues we generate from our commercial activities, such as events like this, enable us to create products and services that support individuals, companies and the wider sector – for example education and training, research, lobbying, achieving policy change, raising industry standards and improving understanding of our market.
